

# How to Customize MyCap for your Project

## Choosing a Custom Theme

1. From the MyCap interface, navigate to **Configure App** section and click **Theme**.
2. Select a preset **Color Scheme** that you would like to use for your project OR enter the hexadecimal (HEX) number for the colors you would like to use.

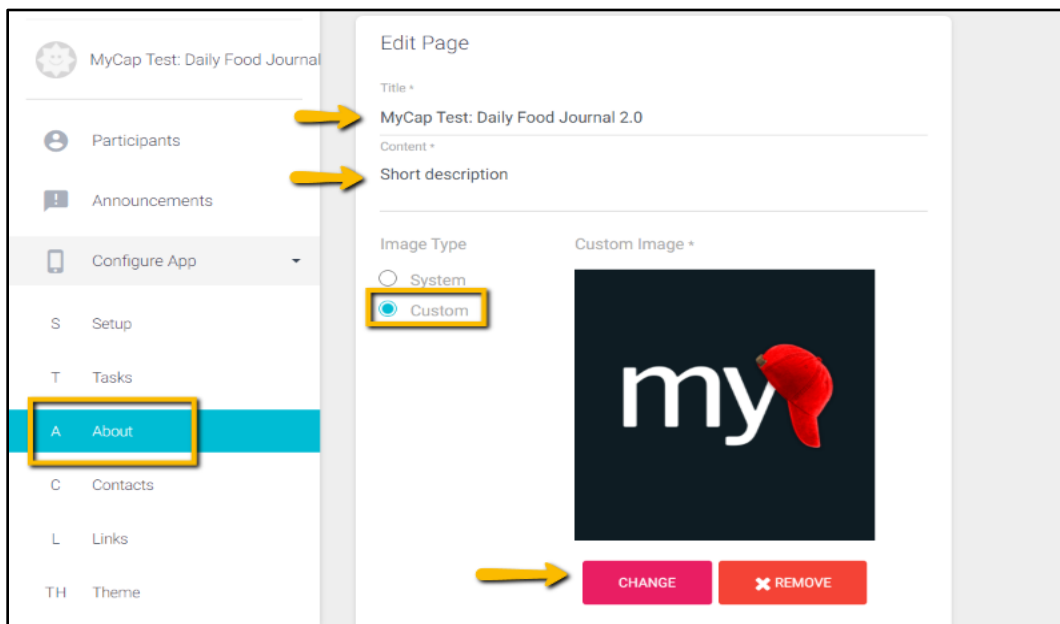

### Tips:

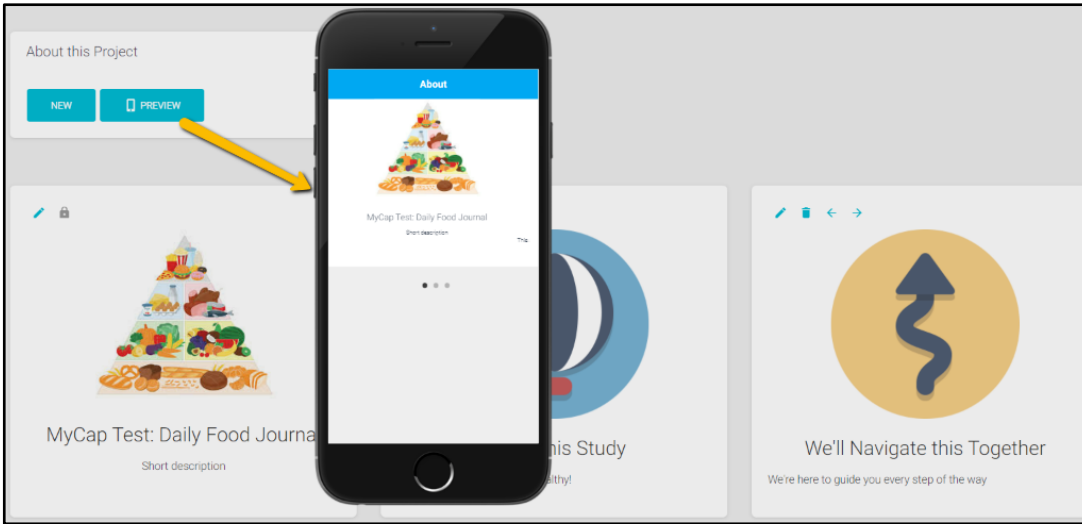

- P: Primary; LP: Light Primary; A: Accent; DP: Dark Primary; LB: Light Background
- Create your own, complementary color theme using this website: <https://www.sessions.edu/color-calculator/>

## Creating Information Pages for Your Project

1. From the MyCap interface, navigate to **Configure App** section and click **About**. Select **New** under About this Project.
2. Enter a project-specific **Title** and **Content/Short Description** to display for participants.
3. Select a **System** image, or upload a **Custom** image.

4. If needed, create multiple About pages by clicking **New**.
5. Use **Preview** to view how the About pages will look on a participant's phone.

## Including Links to General Resources for Users

You can also provide links to general resources for Participants.

1. From the Mycap interface, navigate to the **Links** section and click **New**.
2. Enter a display **Name** for the resource and the **URL**.
3. Select an **Icon** to associate with the resource.
